01 / THE RULES

1. Pick a starting point, a turn count, a budget and a way home.
Try 20 urban / 15 suburban / 10 rural turns. Walking? Try fewer.
2. At each eligible intersection, flip: HEADS = RIGHT. TAILS = LEFT.
3. Follow only safe, legal turns on public roads or paths. Skip unsafe options.
4. Mark a box only after making the turn. At your last turn, find a safe place to stop and enjoy the date. A picnic counts. Either person can stop early.

The passenger flips and writes. Read prompts while safely stopped.

02 / FOLLOW THE PENNY

Our turn goal: _____ Circle L or R after each turn. Cross out unused boxes.

More than 20 turns? Print another copy and continue your count.

03 / BETWEEN FLIPS

What tiny adventure would you like us to try this year?
Which place from your childhood would you show me first?
Which song would you put on the soundtrack for today?
Take turns answering. Skip any question. No answers need to be recorded.
